Subject: Eaton E-STAR: An Employee Received an Award!

Someone has received an award

Dear Sandeep,

Neha Rao has given the following employee(s) the Thank you! for Passion

Recipient:

Shweta Doddamane

[Add Congratulations >](#)

Tanya Sharma

[Add Congratulations >](#)

Neha Rao says:

Hi Tanya and Shweta, I would like to thank you both for completing the "PRL-MPM automation project" for P&S application engg. team in stipulated time frame. Tanya was assigned the above automation project from P&S team in the month of June. Tanya, being an intern showed great interest in the assigned project from the start which helped us achieve our goal of cycle time reduction. She is a quick learner and I am sure she must have learned a lot from this project which would be helpful in her future endeavors. Wishing her all the best for the future! Shweta's mentoring to Tanya in this project help us drive this project till the end. This automation is expected to reduce the time of preparing a particular wiring drawing by almost 50%. - Neha
